MR. CHAIRMAN: There are two other similar questions, Question Nos. 24 and 30. They are on the same subject. The Three can be taken up together.

SHRI S. VIDUTHALAI VIRUMBIU: Sir, the statement of the Minister is incomprehensive. It does not reveal the information which has been asked for. We wanted to know whether the Government would sanction required amount to the spinning sector from the upgradation fund. Sir, our target in 1997 was 2,794 million kilograms. This was our production level. To achieve that target, 24 million quality spindles at 85 per cent utilisation were required. It was actually envisaged by the Government. The target in 2002 is 3,755 million kilograms of yarn. To achieve that target 30 million quality spindles and 3.6 lakh rotors would be required. Sir, my specific question was regarding stand-alone spinning mills which formed a major sector of the textile industry in Tamil Nadu. While addressing the media in Coimbatore the hon. Minister assured that the spinning sector also would be included in the upgradation fund. Subsequently, when they announced the policy, they left out the spinning sector. In the Seventh Plan they had allotted a very small amount. They had allotted Rs. 740 or Rs. 750 crores. That is all. This is peanuts consid-
